

The background is a light beige color with several large, organic, brownish-gold shapes that resemble coral or seaweed. A large white speech bubble is centered on the page. Inside the bubble, the word "Digital" is in a brown rounded rectangle, and "PORTFOLIO" is in large brown letters. Below that, "by mostafa hesham" is written in a smaller brown font. At the bottom left, there are small brown dots arranged in a pattern.

Contact

Hi, I'm mostafa

A student at the Faculty of Engineering. When I was a child, my dream was to become an engineer. I worked hard for that dream until I achieved it, and now I aspire to become a successful cybersecurity engineer."

Education

2022

**"I am a third-year student
at the Faculty of
Engineering, Tanta
University, majoring in
Electronics and
Communications."**

Skills & Experties

Communication

Teamwork

Negotiation

Experiences

**Intern In Mcit Summer Internship
(communication) . (july 2025 - present).**

Intern In Digital Egypt Pioneers-DEPI

Projects

Environmental Data Logger with Alert System

- Designed a data logging system using Arduino Uno, SD card, temperature sensor, LED screen and RTC module.
- Collected and recorded real-time environmental data (temperature) to an SD card for analysis
